# SANITIZER DISPENSER DISTA

## AUTOMATIC DOSING TECHNOLOGY

We introduce you a professional disinfection stand, a product that respond to the current covid-19 global health crisis. Our disinfection dispenser is completely developed, manufactured, designed and certified in the EU. The goal was to offer quality, only selected materials and robust construction.

# HOW IT WORKS

Non-touch automatic dosing technology

- ▶ Insert the hand palm into the dispenser, the device will deliver an accurate dose of disinfectant that is sufficient to wash both

- ▶ Thoroughly massage the disinfectant into the palms of your hands and make sure it has been applied everywhere

- ▶ Wait about 20 seconds, the alcohol disinfection will evaporate

# TECH SPECIFICATIONS
